**And Much, Much More As It Promotes Healthy  
Functioning of The Stomach and Colon**

But before telling you more about this amazing product, here's why people just can't stop talking ....

**“At last I have relief from 10 years of extreme gas and bloating.”**

From the time my youngest child was born (she is now 11) I have experienced continual gas, bloating and extreme discomfort. It has been embarrassing and painful. Now, a mere two weeks later, the bloating is GONE!

I feel better than I have in years, and ready to share this with others.

Valerie, Utah USA

## **“Amazing help with Crohn’s Disease!”**

Our daughter was diagnosed with Crohn’s Disease as a high school student. She was so ill that we didn't know how she'd ever graduate, let alone leave for college. We worked with our doctors, but we were desperate for any to make a bigger difference.

With the tea, she gained the strength to start moving and exercise..B ecause of that progress, she was able to graduate from high school . Now she’s in her 20’s, in college and loving life!

She's still on medication, but as long as she drinks the tea several times a week, she is so much better!

We are so grateful for this product! It has made a huge difference in her life!

## **“No More Back Pain and A Blessing For Constipated Children ...”**

I used to have pain in my lower back especially when sleeping. After drinking this tea for a couple of weeks, there is no more pain. It is amazing.

I also give it to my one- year old niece who is often constipated. What a good feeling to be able to help her find relief!

It has a very mild, agreeable flavor that is easy for children to take.

Thanks so much for sharing this wonderful product !

## Here's How It Works:

Although the human body is designed to flush out all impurities naturally, our modern world has made that virtually impossible.

**We acquire toxins every day from:**

- Food Additives
- Medicine
- Air Pollution
- Soaps & Detergents
- Diet Drinks & Fumes

These toxins create real health challenges that our ancestors never dreamed of when the world was clean and pure.

Even worse: The chemical imbalance in the colon that is created by these hidden toxins *thrive and multiply* on something most of us eat every day:

# SUGAR

# What Happens Next?

These microscopic toxins collect within the colon and along the colon walls, often forming a lining. This layer prevents good elimination and bowel movements.

Constipation, irregularity and a putrid "back-up" of unprocessed, rotting food result.

With this blockage, nutrients from the food you eat cannot be absorbed into the system, leaving our bodies undernourished and explaining why we are often "hungry" even when we've just eaten.

It makes a perfect paradise for parasites to thrive.

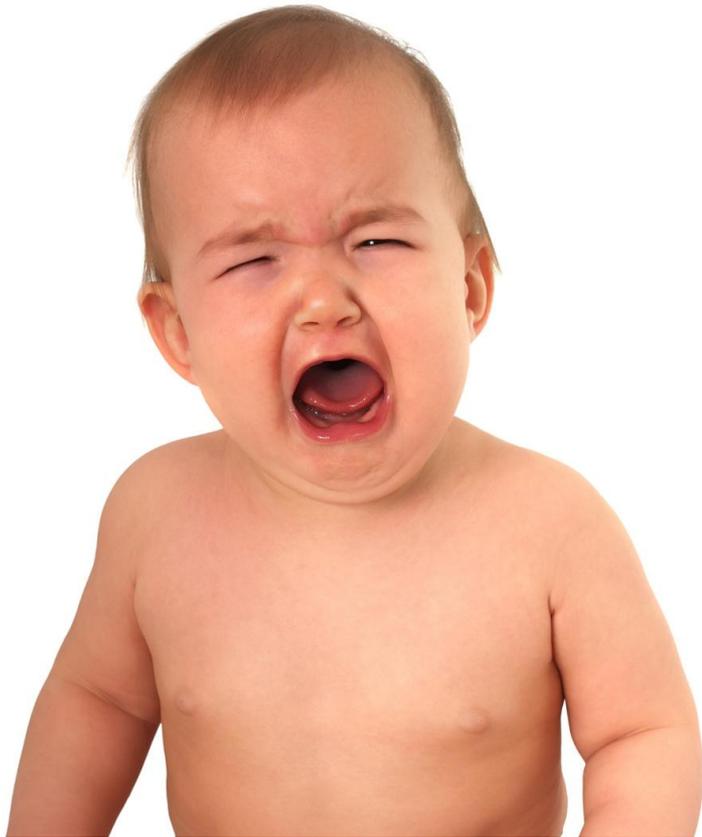

Impacted toxic waste causes sickness and many unpleasant health conditions that drain the joy from every day life.

**Doctors know that the colon is the “mother” of all body systems and as the saying goes ... *“When Mama ain’t happy, ain’t nobody happy!”***

**Tell-Tale Signs of a Dirty Colon Are:**

- Constipation, Bloating
- Bulging Belly, Acid Reflux, IBS
- Skin Problems, Psoriasis, Itching
- Overall Sickness
- Sugar Cravings
- Bad Breath
- Fatigue
- Urinary Tract Infections
- Foul Smelling Farts and Smelly Bathroom

# So What Can We Do?

Of course most of us can improve our diets to some extent, *but the truth is ...*  
many of the toxins we acquire on a daily basis are  
**NOT** food related!

We have little control over the **additives in food**, **cosmetics** and **detergents** ...  
required **medication** ... the **air and fumes**  
we breath ... or even the **money** we handle on a daily basis.

But we can go to the  
source of the problem --  
the dirty colon -- and  
cleanse it with a  
delicious cup of tea!

**Just as you clean the outside of your body each day,  
now you can clean the inside!**

A clean colon *means clean blood*. A clean blood supply circulating in your body *means better health and optimal functioning* for each and every organ and system within your body.
